

## **Report on 9th August 2024 Meeting**

### **'Census Surprises and Records Revelations' Part 1**

This subject offers such scope that I suspect we could fill every meeting until New Year, and beyond. This week we had two excellent offerings, from Allan J who had a Mystery, and Mary G who had a Scandal. Georgina B finished the meeting with a flourish, drawing from her career as a Registrar. There's more where that came from, and we will arrange a meeting to do for Register Offices what James Herriot did for veterinary practice.
